

Employer Names and Position Titles

Data for Place of Employment and Job Title are sourced from the Knowledge Rate research on 1-Year Out graduates from the classes of Fall, Spring, and Summer 2023-2024. Data presented is based on responses of graduates indicating a primary status of "Working full-time", "Working part-time", or "Enrolled in Additional Education" one-year post-graduation who provided a Position Title (Job Title) and Employer Name for Employment-Single Positions and Employment-Multiple Positions. Knowledge Rate is a combination of the Graduate Employment Survey results and research on publicly available information (79% Bachelor's degree recipient Knowledge Rate and 84% Master's degree recipient Knowledge Rate).

Job placement rates are available on the [ArtCenter at a Glance](#) section of our website.
